The primary bookkeeping record in single-entry bookkeeping is the cash book, which is similar to a checking account register (in UK: cheque account, current account), except all entries are allocated among several categories of income and expense accounts. Separate account records are maintained for petty cash, accounts payable and receivable, and other relevant transactions such as inventory ...

A blockchain, originally block chain, is a growing list of records, called blocks, which are linked using cryptography. Each block contains a cryptographic hash of the previous block, a timestamp, and transaction data (generally represented as a merkle tree root hash).. By design, a blockchain is resistant to modification of the data. It is "an open, distributed ledger that can record ...

This post is based on a presentation I gave in Hong Kong for Chain of Things and also one for the Scotland Blockchain meetup. This was inspired by a recent whitepaper I co-authored with Gilbert & Tobin. Since a blockchain/shared ledger is a network of nodes all coming together to share information and work together on different use cases a consortium model makes sense to deploy.
