The Tibetan sovereignty debate refers to two political debates. The first is whether the various territories within the People's Republic of China (PRC) that are claimed as political Tibet should separate and become a new sovereign state. Many of the points in the debate rest on a second debate, about whether Tibet was independent or subordinate to China in certain parts of its recent history.

William Lane Craig is a prolific Christian philosopher, apologist, author, and public debater. He is the best debater " on any topic " that I've ever heard. As far as I can tell, he has won nearly all his debates with atheists. When debating him, atheists have consistently failed to put forward solid arguments, and consistently failed to point out the flaws in Craig's arguments.
