Insoluble drug delivery strategies: review of recent advances and business prospects

Insoluble drug delivery strategies: review of recent

Developmental verbal dyspraxia (DVD), also known as childhood apraxia of speech (CAS) and developmental apraxia of speech (DAS), is when children have problems saying sounds, syllables, and words. This is not because of muscle weakness or paralysis. The brain has problems planning to move the body parts (e.g., lips, jaw, tongue) needed for speech.

Fig. 1 Effect of C-section on developmental changes in body mass.. Change in body mass (in grams) in 69 mice discordant to birth mode during early development, relative to 4 weeks of age (postweaning). Lines represent the average, and the shaded area represents 95% confidence interval.

Increased weight gain by C-section: Functional

The intensive use of toxic and remanent pesticides in agriculture has prompted research into novel performant, yet cost-effective and fast analytical tools to control the pesticide residue levels in the environment and food. In this context, biosensors based on enzyme inhibition have been proposed as adequate analytical devices with the added advantage of using the toxicity of pesticides for ...

Child development entails the biological, psychological and emotional changes that occur in human beings between birth and the conclusion of adolescence, as the individual progresses from dependency to increasing autonomy. It is a continuous process with a predictable sequence, yet having a unique course for every child. It does not progress at the same rate and each stage is affected by the ...
